

## ***Zetron Provides Acom P25 System to U.S. Dept. of Commerce NTIA Institute for Telecommunication Sciences***

***As part of its commitment to open standards, Zetron is supplying its Acom EVO P25 console system to the Institute for Telecommunication Sciences (ITS) at Boulder, Colorado. Personnel at ITS will use the system to learn and understand how a console system operates within a P25 network. They will also use it to develop P25-compliance assessment tests. The Acom system will remain at the site through Jan. 30, 2013.***

**Redmond, WA, U.S.A., April 11, 2012** – As part of its ongoing commitment to open standards, Zetron is supplying a two-position Acom EVO Project 25 (P25) console system to the U.S. Dept. of Commerce – National Telecommunications and Information Administration (NTIA). The system is being used and tested at the NTIA's Institute for Telecommunication Sciences (ITS) at Boulder, Colorado, where it was installed March 27, 2012. Zetron also trained ITS personnel on the system's operation and maintenance. The system will be connected through the P25 Console Subsystem Interface (CSSI) over Ethernet links to live Cassidian and Raytheon infrastructures. It will remain at the site through January 30, 2013.

---

*"This collaboration with the Department of Commerce NTIA demonstrates Zetron's ongoing commitment to P25 and also our active involvement in projects that further the development, understanding and adoption of P25-compliant technologies."*

***Ellen O'Hara***, President and CEO, Zetron

---

The project is designed to help ITS personnel gain a thorough understanding of how a console system operates within a P25 network. In addition, personnel trained on the Acom system's operations will use the system to develop P25-compliance assessment tests.

"This collaboration with the Department of Commerce NTIA demonstrates Zetron's ongoing commitment to P25 and our active involvement in projects that further the development, understanding, and adoption of P25-compliant technologies," said Zetron president and CEO, Ellen O'Hara.

### **About Zetron**

For over 30 years, Zetron has been providing mission-critical communications solutions to customers in public safety, transportation, utilities, manufacturing, healthcare and business. With offices in the U.S.A., U.K., Australia and numerous field locations, Zetron supports a worldwide network of resellers, system integrators and distributors. This gives Zetron a global reach as well as a local presence in the regions it serves. Zetron is a wholly owned subsidiary of JVC Kenwood Corporation.
