

Zetron Leads Industry with 1-million Hours of Successful P25 CSSI-based Operation

Zetron's Advanced Communications (Acom) system featuring P25 CSSI-based technology leads the industry with 1-million hours of successful operation at customer sites.

Redmond, WA, U.S.A., March 11, 2013 – Zetron, a leading provider of mission-critical solutions worldwide, announced that implementations of its Advanced Communications (Acom) system utilizing technologies based on the TIA Project 25 (P25) Console Subsystem Interface (CSSI) have logged more than 1-million hours of successful operation at customer sites in North and South America. This far exceeds the performance of any other CSSI-based dispatch console solution currently available and strengthens Zetron's position as a leader in the application of technologies that utilize the CSSI.

Zetron's Acom using CSSI-based technologies has been implemented for:

- The Royal Canadian Mounted Police, Ontario, Canada
- The Cumberland County 9-1-1/Dispatch Center, Crossville, TN.
- Polícia Civil (Civil Police), São Paulo, Brazil.
- Companhia de Transmissão de Energia Elétrica Paulista (CTEEP), São Paulo, Brazil
- Ergon Energy, Queensland, Australia

"Our customers continue to reap important benefits from Zetron solutions utilizing CSSI-based technologies," said Zetron president and CEO, Ellen O'Hara. "This includes improved interoperability, compatibility, flexibility and a broader range of equipment choices. That's why Zetron has been a proactive leader in the development of open standards and solutions that support them."

About Zetron

For over 30 years, Zetron has been providing mission-critical communications solutions to customers in public safety, transportation, utilities, manufacturing, healthcare and business. With offices in the U.S.A., U.K., Australia and numerous field locations, Zetron supports a worldwide network of resellers, system integrators and distributors. This gives Zetron a global reach as well as a local presence in the regions it serves. Zetron is a wholly owned subsidiary of JVC Kenwood Corporation. For more information, visit: www.zetron.com.
