

Zetron Expedites Orders to Oklahoma Tornado Victims

Zetron announced that it will expedite orders of new and replacement equipment to resellers and customers in Oklahoma who have suffered damage due to the area's recent outbreak of tornadoes.

Redmond, WA, U.S.A., May 28, 2013 – Zetron, a leading provider of mission-critical communications solutions worldwide, announced that it is expediting orders for new and replacement equipment to those who were affected by the tornadoes that devastated parts of Oklahoma this week.

“We are ready to assist our resellers as they help public-safety agencies affected by the tornadoes resume operations as quickly as possible,” said Zetron South-Central U.S. Territory Manager, Mark Hunt. “To support these efforts, we will expedite orders for equipment repairs and replacements related to the tornado and deliver equipment to those affected by the tornadoes without delay.”

Zetron resellers who need assistance due to the tornado should call (425) 820-6363 and press 2.

About Zetron

For over 30 years, Zetron has been providing mission-critical communications solutions to customers in public safety, transportation, utilities, manufacturing, healthcare and business. With offices in the U.S.A., U.K., Australia and numerous field locations, Zetron supports a worldwide network of resellers, system integrators and distributors. This gives Zetron a global reach as well as a local presence in the regions it serves. Zetron is a wholly owned subsidiary of JVC Kenwood Corporation. For more information, visit: www.zetron.com.
