

## ***Zetron to Exhibit at Marintec China and Comms Connect Melbourne***

***Zetron Australasia will be exhibiting at the Marintec China maritime tradeshow, which takes place 1–4 December 2015 in Shanghai, China; and Comms Connect Melbourne, a critical communications tradeshow being held 1–3 December 2015 in Melbourne, Australia. Zetron’s offerings at these shows will highlight integrated control-room communication solutions for maritime, public-safety, utilities, resources, rail, and aviation markets.***

**Redmond, WA, U.S.A., November 3, 2015** – [Zetron](#), a leading provider of mission-critical communications and security systems worldwide, will be exhibiting at two key international tradeshows in December—Marintec China, a maritime tradeshow that takes place 1–4 December 2015 at the Shanghai New International Expo Centre in Shanghai, China; and Comms Connect, a show that focuses on mission-critical communications; it is being held at the Melbourne Convention & Exhibition Centre in Melbourne, Australia 1–3 December 2015.

Zetron’s demonstrations at these shows will illustrate how the integration and management of multiple voice and data sources can enhance operations, improve decision making and response times, and enrich situational awareness. Featured products will include customisable radio dispatch and integrated communication solutions that support more radio, telephony, and data interfaces than any other console system on the market. These solutions are also expandable and able to scale from one operator position to hundreds. At Comms Connect, Zetron will also be showing a complete video surveillance offering that includes advanced video-management software, IP cameras, video analytics, and a variety of storage devices and accessories.

“We very pleased to be exhibiting again at Comms Connect and for the first time at Marintec China,” said Ranjan Bhagat, Vice President and General Manager, Zetron Australasia. “Zetron’s presence at these two shows underscores our commitment to supporting the diverse needs of emerging Asian markets even as we continue to lead the industry in the local Australian market. With over 35 years of experience, Zetron is the undisputed control-room console provider of choice for mission-critical communication markets worldwide.”

Zetron products and systems are engineered at world-class research-and-development centres in Australia and the United States and manufactured, staged, and tested at Zetron’s facilities in Brisbane, Australia; Redmond, U.S.A; and Hampshire, United Kingdom. Zetron’s internal project teams then work with local partners, systems integrators, and resellers to deploy these solutions in regions throughout the world.

### **About Zetron**

Founded in 1980, Zetron manufactures and provides communications systems designed to equip the entire mission-critical control room. Zetron’s integrated solutions combine IP-based dispatch, NG9-1-1 call-taking, voice logging, IP fire station alerting, CAD, mapping, video surveillance and security solutions, and automatic vehicle location (AVL) systems. They are expandable, interoperable, and able to support remote and geo-diverse operations. Zetron backs its products with technical support and project-management services known for their expertise and responsiveness. Zetron has offices in the United States, the United Kingdom, Australia, and numerous field locations; and a worldwide network of resellers, system integrators and distributors. Zetron has installed thousands of systems and over 25,000 console positions worldwide. Zetron is a wholly owned subsidiary of JVCKenwood Corporation.
