

Zetron Leads Industry with over 5 Million Hours of P25 CSSI Operation

Zetron's Acom integrated dispatch system featuring the Project 25 (P25) Console Subsystem Interface (CSSI) has exceeded 5 million hours of successful operation at customer sites.

Redmond, WA, U.S.A., January 14, 2016 – [Zetron](#), a leading provider of mission-critical communication solutions worldwide, announced that implementations of its [Acom](#) integrated dispatch system utilizing the TIA Project 25 (P25) Console Subsystem Interface (CSSI) have logged more than 5 million hours of successful operation at customer sites throughout North and South America and Australia. This far exceeds the performance of any other CSSI-based dispatch console solution currently available. Implementations of [Acom](#) utilizing the CSSI have also performed successfully with P25 Phase II networks. This is significant because Phase II provides twice the spectrum efficiency of Phase I.

“Exceeding 5 million hours of successful CSSI operation is yet another demonstration of our ongoing commitment to supporting P25 and other [open standards](#),” said Zetron President and CEO, Ellen O’Hara. “It also underscores our continuing dedication to delivering solutions that provide cross-system compatibility and offer a wide range of equipment choices.”

[Zetron](#) supports the integration of its radio dispatch systems with all major CSSI radio infrastructure manufacturers, including:

- Motorola (Phase I and II)
- Harris (Phase I and II)
- Airbus
- Tait
- EF Johnson
- Auria
- Codan
- Raytheon

About Zetron

Founded in 1980, Zetron manufactures and provides communications systems designed to equip the entire mission-critical control room. Zetron’s integrated solutions combine IP-based dispatch, NG9-1-1 call-taking, voice logging, IP fire station alerting, CAD, mapping, video surveillance and security solutions, and automatic vehicle location (AVL) systems. They are expandable, interoperable, and able to support remote and geo-diverse operations. Zetron backs its products with technical support and project-management services known for their expertise and responsiveness. Zetron has offices in the United States, the United Kingdom, Australia, and numerous field locations; and a worldwide network of resellers, system integrators and distributors. Zetron has installed thousands of systems and over 25,000 console positions worldwide. Zetron is a wholly owned subsidiary of JVCKenwood Corporation. For more information visit: www.zetron.com
