## ***Iberdrola Selects Zetron's AcomNOVUS for Deployment in Control Centres Across Spain***

***Zetron's powerful AcomNOVUS control-room solution has been selected by leading energy company, Iberdrola, to equip their Control Centres throughout Spain.***

**Redmond, WA, U.S.A., March 11, 2016** – Iberdrola España, S.A.U., one of the world's top power companies and an international leader in renewable energies, has selected Zetron's advanced communications solution, AcomNOVUS, to coordinate and control Iberdrola's vast energy operations throughout Spain. Zetron is a leading provider of mission-critical communication solutions worldwide. AcomNOVUS was chosen for its advanced voice telephony features, its flexible and secure operator interface, and its highly resilient core architecture. The system will be deployed for use by over 150 control centre operators.

"We are delighted that, after a rigorous review process, we were selected by Iberdrola for this extensive project," said Zetron president and CEO, Ellen O'Hara. "We are also pleased that Iberdrola has recognised the high performance AcomNOVUS offers, as well as the exceptional support provided by Zetron's organisation and partners. AcomNOVUS is an effective platform for organisations like Iberdrola whose control-centre solutions must be able to meet current and evolving requirements."

As a result of its major transformation over the last ten years, Iberdrola has become Spain's leading energy group and one of the top Spanish companies on the Ibex 35 by market capitalisation. Iberdrola is also one of the leading operators in the U.K., one of the largest electricity utilities in the United States, the main private-power generator in Mexico, and the electricity supplier with the most customers in Brazil.

### **About Zetron**

Zetron has been designing and delivering communications systems for mission-critical control room since 1980. Zetron's integrated solutions combine IP-based dispatch, NG9-1-1 call-taking, voice logging, IP fire station alerting, CAD, mapping, video surveillance and security solutions, and automatic vehicle location (AVL) systems. They are expandable, interoperable, and able to support remote and geo-diverse operations. Zetron backs its products with technical support and project-management services known for their expertise and responsiveness. Zetron has offices in the United States, the United Kingdom, Australia, and numerous field locations; and a worldwide network of resellers, system integrators and distributors. Zetron has installed thousands of systems and over 25,000 console positions worldwide. Zetron is a wholly owned subsidiary of JVCKenwood Corporation.
